

Beatrice Wheatley – Personal Profile.

In July 2017, I moved to Friston from Willingdon with my family. Before moving I was familiar with the area due to regularly riding my horse around Friston from where we keep him in Jevington. I fell very lucky to now call it my home.

I am currently studying for a Law Degree at the University of Brighton. After graduating in 2020, I have plans to train as a Barrister.

I am very outgoing and love the outdoors, I horse ride regularly and have a love for running.

I feel my views as a councillor relate to the younger generation within the parish, strengthening the council in terms of its representation to the wider community.

I have a real passion for the countryside and the protection of the environment. I aim to ensure that the plans of the parish include continuing to protect and preserve the wildlife in the area.

Becoming a councillor has allowed me to give back to the community which I love and enjoy being a bigger part of.
