

# EAST DEAN RESPONDERS

(Registered Charity No. 1137441)

## COULD YOU HELP IN AN EMERGENCY?

If so, we have good news for you! New Community First Responders are now being recruited and trained by South East Coast Ambulance Service (SECAMB) who has identified East Dean and Friston as needing more Responders. No medical experience needed but plenty of common sense is an asset!

Interested? How about having a chat with team members Lys (423484) or Flora (423882) who would be pleased to hear from you?

## FEEDBACK from an East Dean resident

I called the emergency services when I was unable to wake my wife. The Community First Responders were here in a couple of minutes and had woken and reassured her, and me, by the time the paramedic arrived. I was impressed by the professional way they were accepted by him and the care they gave my wife and me, explaining what I then needed to do. It is also hugely reassuring to know there are Community First Responders in East Dean. The service was exemplary.
