

Peter Williamson

I have lived in village with my partner, Diane, and black Labrador, Webburn, since January 2017

I have over 30 years' experience of woodland ownership

In my role as Tree Warden I am available to give advice and information about trees and hedges, including for planning applications and plant health.

I will be instrumental in plans being made to restore and improve tree and hedgerow cover within the parish so that the natural habitat is enhanced for wildlife and becomes more resilient to climate change.

I can be contacted on the numbers below or by email - treewarden@edfparishcouncil.org.uk
